Featured Speakers:

Former US Congressman Tom Tancredo, (R-CO)

Years ago, he was a lone voice in the wilderness. Speaking out against the ills of the illegal alien invasion, no one in the halls of power wanted to listen at that time. As a congressman, he once showed surveillance video of illegal border crossings to hundreds of his colleagues. The video showed trafficking in faceless immigrants and illicit drugs. No one wanted to see it. In just 4 minutes, hundreds of members of congress, his colleagues, had vacated the room. They weren't interested. No one wanted to listen. Tom Tancredo currently serves as chairman of Rocky Mountain Foundation, co-chairman of the anti-illegal immigration Team America PAC, and honorary chairman of Youth for Western Civilization. He speaks frequently on cable news, talk radio, and on college campuses—where his mere presence has led leftists to riot on multiple occasions. His first book, *In Mortal Danger: The Battle for America's Border and Security* was published in 2006.

U.S. Congressman Ted Poe (R-TX)

In January 2009, Congressman Ted Poe was sworn in to serve a third term representing the Second Congressional District of Texas in the United States House of Representatives. Congressman Poe has taken leadership roles in Washington, DC to advocate on behalf of victims and children and recognized nationally for his efforts to secure our borders and establish a plan for energy independence. Before serving the 2nd Congressional District, Congressman Poe was a prosecutor and judge for 30 years in Houston, Texas. Judge Poe was known for his creative sentencing of criminals and hard-nosed approach to enforcing the law.

Former Governor Gary Johnson, (R-NM)

As Governor of New Mexico, Johnson was known for his common-sense business approach to governing. He eliminated New Mexico's budget deficit, cut the rate of growth in state government in half and privatized half of the state prisons. Gary Johnson is a Republican and serves as the Honorary Chairman of the Our America Initiative. He has been an outspoken advocate for efficient government, lower taxes, winning the war on drug abuse, protection of civil liberties, revitalization of the economy and promoting entrepreneurship and privatization.

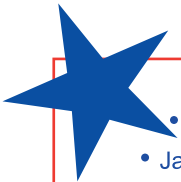

Jerome Corsi

Dr. Corsi is the author of several books, including "Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry" (along with John O'Neill), "Black Gold Stranglehold: The Myth of Scarcity and the Politics of Oil" (along with Craig R. Smith), "Atomic Iran: How the Terrorist Regime Bought the Bomb and American Politicians," and recently, "Minutemen: The Battle to Secure America's Borders." His latest book America for Sale. Fighting the New World Order. Surviving a Global Depression. and Preserving USA Sovereignty was released in Oct. 2009.
